Make your own Drop Spindle

You will need:

- 2 Rubber bands or duct tape
- 4 Paper clips
- Bamboo skewer or sharpened pencil
- Scissors
- Crayons, markers, stickers with which to decorate
- Gluestick (optional)

Cut out & color or otherwise decorate this Spindle Whorl:

- ❖ If desired, glue to tagboard before cutting out. You may also print on heavy stock.
- ❖ Unfold a paper clip so that only the large hook remains bent.
- ❖ Use Duck Tape or a rubber band to secure the hook to the blunt end of the skewer, or the eraser end of the pencil.
- ❖ Push point through the small circle in the center of the whorl. Use a rubber band or tape to support the whorl from underneath.
- ❖ Weight edges of the whorl with paperclips.
